VENT-FREE GAS STOVE HEATERS

**VANGUARD**<sup>®</sup>  
VENT-FREE GAS HEARTH PRODUCTS

## VANGUARD VENT-FREE GAS STOVE HEATERS...

### COMBINING THE NOSTALGIC BEAUTY OF A CAST IRON STOVE WITH THE LATEST IN GAS STOVE HEATING TECHNOLOGY!

*Vanguard Cast Iron Stoves bring you the old world charm of a wood burning stove combined with the economy, convenience, comfort and efficiency of vent-free gas space heat. These beautiful appliances eliminate both the need for unsightly, expensive venting and the inconvenience of wood burning*

#### *Efficient Vent-Free Heat Without the Mess of Woodburning*

A Vanguard Stove is 99% heating efficient while delivering up to 30,000 Btu of heat... enough to warm up to 1,000 square feet for only pennies an hour. A Vanguard stove enhances your decor and is an economical way to reduce the expensive operating cost of central heating. It also provides emergency heat during power outages.

Enjoy the realism and beauty of the dual burner system which features an abundance of dancing yellow flames and realistic golden oak logs in a unique five log, one-piece design. The burner system is offered in both variable manually and remote control ready models. Both feature a "matchless" piezo ignition system.

#### *Variable Manually Controlled Models - Select the Heat Setting You Prefer.*

Burner systems featuring a variable manual control, allow you to select the heat setting and flame height you desire by simply turning a control knob.

#### *Remote Controlled Models - Offer You Heat at the Push of a Button.*

Vanguard Remote Control Ready Burner Systems offer you four types of remote controls as well as the ability to operate the log heater with a built-in variable manual control.

Remote control accessories are optional and include a wall mount off/on switch or thermostat, a hand held on/off or thermostat remote control. The thermostat remote control will allow you to operate the burner system in a manually or automatically (thermostat) controlled mode plus you can turn it on or off.

#### *A Color and Style to Match Every Decor*

Vanguard Cast Iron Stoves are offered in two attractive styles and several popular decor colors. The Amity™ Stoves offer a traditional presentation with a rounded peacock window, curved square legs and raised detailing. The Amity is available in four lustrous finishes: Azure Blue (Model SCIVFB - As pictured on front cover), Burgundy Red, Hunter Green and Charcoal (See Below).

The new Sheraton™ Stoves feature an upscale look including a beautifully detailed window, a gently sloped roof and rounded legs. The Sheraton is available in two eye-pleasing neutral colors: Charcoal (See Below) and Topaz (Model NSCIVFT - See photo on page 3).

*Burgundy Red- Model SCIVFR*

*Hunter Green - Model SCIVFG*

*Charcoal - Model SCIVFC and NSCIFC*

▲ *The Sberaton Stove features upscale styling and is shown with a Topaz finish. The beautiful flames of the dual burner system are reflected in the stove's porcelainized reflector back which enhances the dynamic yellow flames.*

### ◀ *Installation and Operation Are A Snap*

A Vanguard Stove can be installed anywhere accessible to a gas line. Simply select a burner system based upon the fuel type of your home...natural or propane gas.

Assembly is simple. A qualified installer removes the stove's porcelainized back plate by loosening four screws, fastens the burner system to the stove floor and connects to the gas supply.

Replace the back plate and you're ready to operate and enjoy the beauty and comfort of your Vanguard Stove.

Operation is easy with the controls conveniently located behind the door. Simply open the door, start the burner system with the matchless piezo ignitor and select the desired heat output/flame height with your variable or remote control.

# PRODUCT SPECIFICATIONS

Vanguard Vent-Free Cast Iron stoves are not only beautiful, they offer clean, safe, reliable heat.

Vanguard's complete line of vent-free gas hearth products features a full line of gas logs, Mini Hearth Gas Heaters, Classic Hearth Gas Fireplace Systems, Cast Iron Gas Stoves plus LogMate Fireboxes and Stoves. Vanguard also offers a complete selection of Direct Vent Fireplaces.

## Safety Features Built Into Every Stove

Vanguard's Vent-Free Gas Stove Heaters are designed certified by the American Gas Association and meet or exceed all regulations and safety performance standards for vent-free gas appliances. Additionally, these heaters perform well within nationally recognized guidelines for indoor air quality.

The dual purpose safety pilot system protects against oxygen depletion and any interruption in the fuel supply. If either occurs, it shuts off the gas flow to the burner turning the heater off. An internal pressure regulator controls fluctuations in your gas pressure. These features ensure clean and reliable heat without the worry and inconvenience of vented gas logs or burning wood.

### IMPORTANT

Installation must be done by qualified service persons.

Read Owner's Manual before using.

Check local codes and ordinances for permitted uses.

All products approved for manufactured (mobile) home installation.

We reserve the right to amend product specifications without notice.

Operating heater at elevations above 4,500 ft. could cause nuisance outages.

Use with adequate air (ventilation) only. Humidifies while it heats. Provides water vapor in the area heated. Refer to owner's manual for specifics.

Product cannot be converted between fuel types.

The only warranty we offer is our standard warranty. Please read the warranty for any limitations or disclaimers.

All parts have a limited three year warranty.
