Approved For Use With Any  
Vent-Free Logs\**

**VANGUARD**

VENT-FREE GAS HEARTH PRODUCTS

# CREATE A CUSTOM VENT-FREE GAS FIREPLACE

## ...INSTANTLY!

### *A Perfect Match....the LogMate Firebox and Vanguard Vent-Free Gas Log Heater of Your Choice.*

A LogMate Firebox or Stove by Vanguard allows you to enjoy the beauty of a fireplace along with the warmth and efficiency of a vent-free gas space heater...instantly. And at a fraction of the cost of a wood burning fireplace.

Pair a LogMate with any Vanguard (or other brand of) Vent-Free Gas Log Heater\* of your choice. The fireboxes may be installed against (or recessed into) any wall accessible to a gas line. The stove is freestanding. The LogMates and the clean burning 99% heating efficient logs require no chimney or outside venting, so all the heat stays in the room.

### *Beautiful Choices.*

All standard LogMate Fireboxes are offered in two styles. The heat circulating fireboxes feature louvers and can be fitted with the optional blower. The smooth face non-circulating model is ideal for custom trim applications such as stone or marble.

All fireboxes feature an attractive textured charcoal paint finish, hood and wire mesh firescreen. The 36" and 42" models feature a unique lightweight concrete liner and floor. The 32" fireboxes include a fiber ceramic liner.

The new see-thru and peninsula LogMate Fireboxes offer versatile and creative ways to install a fireplace in your home. Both also include a charcoal textured paint finish, louvers, hoods and firescreens. The firebox side(s) are lined in fiber ceramic brick panels. The optional blower can be installed.

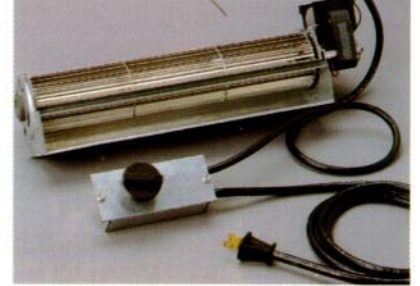

### *Accessories to Complete the Look.*

Customize your 32" LogMate Vent-Free Firebox with a variety of optional mantels, marble laminate trim kits, and/or brass hood. Beautifully designed mantels are available in standard cabinet and space saving corner designs, in an assortment of finished, painted and unfinished hardwood and oak. Unfinished mantels are ready to stain or paint. Optional hearth bases in hardwood, oak or slim marble laminates are also available for the 32" LogMate.

Optional unfinished cabinet mantels, brass accent trim and brass hoods are offered for the 36" and 42" LogMate Fireboxes. Brass louvers kits are available for the see-thru and peninsula fireboxes. A firebox top in unfinished oak is available for the Peninsula Firebox.

Attractive polished brass firebox perimeter trim is included with every LogMate mantel. The perimeter brass trims are also available separately for custom installations and offer an easy way to cover unfinished edges around fireboxes.

\* All Vanguard LogMate Fireboxes are approved as Universal fireboxes and can be paired with any manufacturer's ANSI Z21.12 approved vent-free log (physical size limitations apply). 42" LogMate Fireboxes can be paired with any standard Vanguard Log. The 36" LogMate will accept any 18", 24" or 30" log. Only 18" and 24" Vanguard Logs can be installed in a 32" LogMate. An 18" Log can be installed in the LogMate Stove. The multi-sided log installs in the see-thru or peninsula firebox.

*The optional GA3700 blower accessory can be installed in any circulating louvered LogMate Firebox or the stove to maximize heat distribution. Features a variable speed control.*

**NEW FOR '98  
OFF-WHITE MANTEL  
AND BASE**

### IMPORTANT

Installation must be done by qualified service persons.  
Read Owner's Manual before using.  
Check local codes and ordinances for permitted uses.  
All products approved for manufactured (mobile) home installation.  
We reserve the right to amend product specifications without notice.  
Operating heater at elevations above 4,500 ft. could cause nuisance outages.

Use with adequate air (ventilation) only. Humidifies while it heats. Provides water vapor in the area heated. Refer to owner's manual for specifics.  
Product cannot be converted between fuel types.  
The only warranty we offer is our standard warranty. Please read the warranty for any limitations or disclaimers.  
All parts have a limited three year warranty. Stainless Steel burners carry a limited five year warranty. All accessories have a one year warranty.
